

PDF Test Documents

This test document has a lot of different elements in it and has been saved in different ways in order to create different environments for you.

Image

For an image or other non-text element to be accessible, it must have a text description with it.

Tables

Tables can get tricky in PDF forms.

This table has headings in the first row only

DAY	DATE	OPPONENT	TIME (ET)	RADIO	TV/RECAP
Sun.	3	REDSKINS	4:15 PM	94 WYSP (94.1 FM)	FOX*
Sun.	10	@ 49ers	8:20 PM	94 WYSP (94.1 FM)	NBC*

Same table but has table headings in first row and first column

DAY	DATE	OPPONENT	TIME (ET)	RADIO	TV/RECAP
Sun.	3	REDSKINS	4:15 PM	94 WYSP (94.1 FM)	FOX*
Sun.	10	@ 49ers	8:20 PM	94 WYSP (94.1 FM)	NBC*

Forms

Creating accessible forms for PDF has to be completed in PDF but here are some examples of forms

“Appears” as a form

Name: _____

Email: _____

Form Elements added in Word Document (Word 2003)

Textbox Example:

Radio Button Example: ☒ OptionButton1 ☐ OptionButton2

Checkbox Example: ☐ CheckBox1
